

Auping Original

Graphic design. Strong steel foundation

The Auping Original is a timeless bed that combines minimalist design with iconic Dutch craftsmanship. Inspired by one of Auping's earliest classics, the Cleopatra, the Original features strong lines, rounded corners and an elegant steel frame that creates a calm and sophisticated look in any bedroom. Its understated design makes it a versatile statement piece that fits effortlessly into both modern and classic interiors.

Auping Original

Graphic design. Strong steel foundation

Benefits

■ Graphic design

The strong foundation for those who want to experience true Auping design. The slim steel frame and clean lines give the bed a graphic character. No excess, just a solid design that brings a sense of calm, stands the test of time and feels reassuringly sturdy.

■ Award

The 'Good Industrial Design' recognition is the most important distinction for industrially designed products.

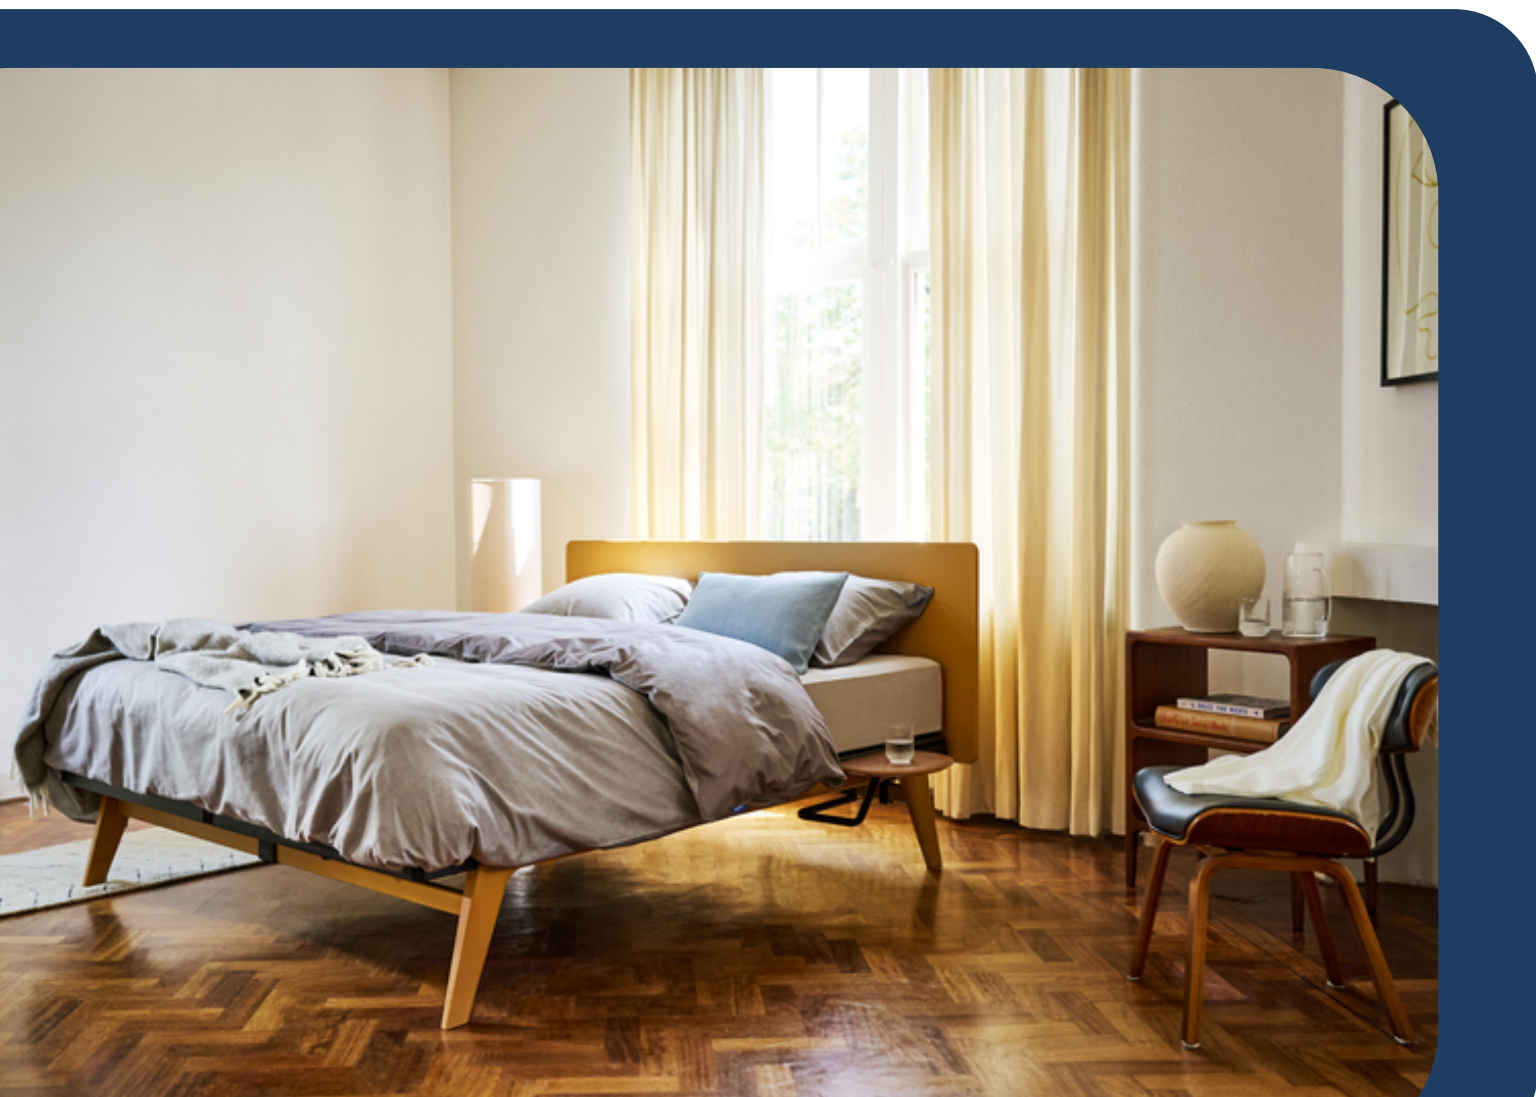

■ Sleeping Comfort

Thanks to Auping's signature mesh base technology, the Original offers excellent ventilation and ergonomic support. The open structure creates a fresh and comfortable sleeping climate for a restful night's sleep.

■ Sustainably Made

Crafted from strong, high-quality and recyclable materials, the Auping Original is designed to last for generations. Its modular construction and sustainable production reflect Auping's commitment to circular design and responsible craftsmanship.
